ABOUT ME

I recently transitioned into tech.

first ,I learnt graphic design and moved to learn how to code ,learning HTML,CSS,JAVASCRIPT, react.js and now am cuurrently learning software development with 3MTTNigeria, it has been an exciting journey for the past 3 months, attending courses and seminars online has been a game changer for me.

learning to code to solve real life problems is the highlight for me.

WORK EXPERIENCE

3MTTNigeria

Internship & Graduate | Software developer
Makurdi , Nigeria
2023-12-01 | Currently working here

As a student with 3MTT Nigeria, my daily routine revolves around a structured curriculum designed to build a strong foundation in software development. I begin by attending lectures and workshops, where I absorb theoretical concepts and practical techniques. Throughout the day, I engage in coding exercises, applying what I've learned to real-world scenarios. I actively participate in group projects, collaborating with peers to tackle challenges and deliver solutions. My achievements include mastering programming languages, understanding data structures and algorithms, and developing critical problem-solving skills. Each day, I strive to deepen my understanding of software development principles and enhance my capabilities as a future developer.

Shecodes

Internship & Graduate | Frontend developer
Makurdi , Nigeria
2021-02-01 | 2023-11-01

Been enrolled in SheCodes, an online school empowering women in coding, my daily routine is marked by flexibility and empowerment. I begin my day by accessing the comprehensive

learning platform, where I have the freedom to choose from a variety of courses and tutorials tailored to my skill level and interests. Throughout the day, I engage in self-paced learning, progressing through modules at my own speed. I take advantage of interactive exercises, video lectures, and coding challenges to deepen my understanding of programming concepts. My achievements include mastering new languages and frameworks, completing projects that showcase my abilities, and networking with fellow SheCodes members through online forums and events. Each day brings new opportunities for growth and discovery as I chart my path in the tech industry with confidence and determination.
